

Devonshire honey cake

Ingredients

250g clear honey, plus about 2 tbsp extra to glaze

225g unsalted butter

100g dark muscovado sugar

3 large eggs, beaten

300g self-raising flour

Note

**May use dark brown sugar
instead of Muscovado sugar**

Method

1. Preheat the oven to fan 140C/ conventional 160C/gas 3. Butter and line a 20cm round loose bottomed cake tin.
 2. Cut the butter into pieces and drop into a medium pan with the honey and sugar. Melt slowly over a low heat. When the mixture looks quite liquid, increase the heat under the pan and boil for about one minute. Leave to cool for 15-20 minutes, to prevent the eggs cooking when they are mixed in.
 3. Beat the eggs into the melted honey mixture using a wooden spoon. Sift the flour into a large bowl and pour in the egg and honey mixture, beating until you have a smooth, quite runny batter.
 4. Pour the mixture into the tin and bake for 50 minutes-1 hour until the cake is well-risen, golden brown and springs back when pressed. A skewer pushed into the centre of the cake should come out clean.
 5. Turn the cake out on a wire rack. Warm 2 tbsp honey in a small pan and brush over the top of the cake to give a sticky glaze, then leave to cool. Keeps for 4-5 days wrapped, in an airtight tin.
